PROFILE

I've been actively learning Python for a year now, completed two courses at stepik.org, and received certifications.

I made several projects on writing telegram bots which you can find on GitHub.

I can work with Database & SQL, FTP, SSH, Docker, set up projects on VDS\Unix systems, worked with asynchronous programming as well: aiogram, webhook, os, etc. Have a basic knowledge of HTML and CSS.

At the moment I'm studying Django and increasing the level of knowledge gained.

EXPERIENCE

2020 - 2022 Mining BTC.com

Connection and service. Installing software, monitoring the performance and correct operation of the equipment. Periodic maintenance of hash boards.
